

Higher Farm B&B – Accessibility

There is a large parking area just outside the front door to Higher Farm, with smooth tarmac. The entrance is approached via paving slabs, and the door is 86mm wide. The front door gives onto the entrance hall. The guest lounge & dining room, plus one downstairs bedroom (Meadow Suite), are on the ground floor. The floors have hard surfaces throughout, with no steps.

Access to the first floor is via a turning staircase which has 2 flights of 5 steps and 8 steps with a handrail on the left then right. There are three bedrooms upstairs (The Roost, The Sty and The Stables).

All bedrooms have en suite bathrooms. There is a landline phone in all bedrooms with free outgoing calls, and a zoned fire alarm and emergency lighting system.

The guest lounge & dining room has a tiled floor, and tables can be easily moved to accommodate particular needs.

There is a patio outside the dining room for guests' use. This is reached either from the front door (no steps) or from the dining room (1 step).

Assistance dogs are, of course, welcome to stay.
